A stethoscope is positioned over a medical chart. The chart contains a chemical equation: $6CO_2 + H_2O + Energy$. The word "Preface" is written in a large, blue, serif font over the stethoscope and chart.

Preface

Bangladesh is a densely populated country in the world with a population of about 160 million. Bangladesh has a unique health system starting from the Ministry of Health & Family Welfare (MOH&FW) in the capital to Health Assistants at the grass-root level. But due to a shortage of budget, the service coverage is not adequate and uniform throughout the country. Privatization of health care services is very important for Bangladesh. With this feeling, MH Samorita Hospital & Medical College, Dhaka, started its journey in 2010 with the permission from the MOH&FW of the Government of the People's Republic of Bangladesh & the University of Dhaka. All praise is for Allah.

MH Samorita Medical College and Dental Unit have taken steps to fulfill this gap and aspiration of the students in the prevailing situation. There is also a 500-bedded teaching hospital attached to MH Samorita Medical College. This hospital is a well-equipped facility delivering both general and specialized services, including ICU, Cath Lab, CT Scan, CCU, NICU, HDU & Dialysis unit.

Our challenge is to establish this Medical College and attached Hospital as a centre of excellence, keeping its quality, cost, and satisfaction of all stakeholders, and with great respect to our cultures and values. It has already traversed 6 years by winning these challenges. Now the college has gained confidence to become capable to educate national and foreign students.

Students will get admission into the college to learn and practice for long five years and finally come out as a physician, who will serve mankind with deep care and competence.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

From Chairman's Desk

It is my earnest desire that the quality health care service are taken to the doorsteps of each and every citizen of the country. This can only be achieved by producing quality doctors and supporting professionals. We are committed to keep abreast with the modern developments and advancements in the sphere of medical science. I am pleased and proud of having a good number of experienced and qualified teachers to ensure and excellent academic atmosphere in the college, which is an indispensable precondition to teach the medical students. I am much delighted to announce that by the grace of Al-mighty Allah MH Samorita Hospital and Medical College has been continuing its journey since 2010. This year we are going to admit 7th Batch MBBS students, 6th Batch BDS students and 3rd Batch Nursing students.

Samorita Hospital was established about 35 years ago. Then we became determined to establish a Medical College and a Hospital maintaining the international standard keeping in mind the acute shortage of Doctors and Dental Surgeons in Bangladesh. Hence MH Samorita Hospital and Medical College was established and later on, we established MH Samorita Medical College Dental Unit & Nursing College (BSC & Diploma).

We are really proud of having a good number of highly qualified and renowned teachers in our Medical college & Dental Unit enriching our facility and ensuring us a quality teaching learning environment.

Bangladesh is a densely populated country. The government of Bangladesh has never been able to ensure proper medical facilities for its total population. A vast number of people of our country are deprived of modern medical facilities and hence die of many diseases which can easily be prevented and cured. Moreover, the doctors, nurses and patients ratio in our country is very poor and alarming in our country. With this view, MH Samorita Hospital & Medical College was founded in 2010 in the heart of the Dhaka city and after some time MH Samorita Nursing Unit was established to meet up the health care service of the people.

We have a very different motto. Our motto is to develop it as a centre of excellence for medical education and medical Science. Many of the meritorious students do not get chance to be admitted in Government Medical Colleges due to limitation of the seats. Our second objective is to provide them with a standard medical education at a lower cost.

Our third objective is to make a trustworthy place for treatment of the patients at a minimum cost in comparison with other private hospitals in the country.

Lastly, we are very much sincere in keeping our promises and also expect your sincere cooperation to fulfill our objectives.

We are looking forward to developing one of the best Medical Colleges and Hospitals in the country for imparting best education to produce the best medical professionals of international standard and to ensure quality treatment facilities. To accomplish the mission, we provide the students with all types of Modern Logistic supports, such as modern academic environment, modern laboratory facilities with excellent teachers etc.

Alhaj Mockbul Hossain MA & LLB
Former Member of the Parliament & CIP
Founder Chairman
MH Samorita Hospital & Medical College

From Principal's Desk

It is my greatest pleasure to complete the fruitful and successful maiden year of MH Samorita Hospital & Medical College. Now we are launching the prospectus for the 7th batch of MBBS & 6th batch of BDS medical students with still greater vigor and optimism along with more facilities and opportunities for the 7th batch of MBBS students. Since the independence of Bangladesh, the government is trying hard to solve various health problems of the country and meet up the basic needs of its people including medical sector. But government has never been able to cope with the problems of health services due to lack of sufficient doctors and nurses. Hence Private Medical Colleges are helping the government in this regard solve medical problem of the country by producing medical professionals.

Alhaj Mockbul Hossain, one of the most dynamic private sector investor founded MH Samorita Hospital & Medical College with his personal initiative. He had a vision of ensuring highly successful and cost effective medical treatment not only for the affluent people but also for the poor and homeless with same standard and quality.

At present, MH Samorita Hospital & Medical College has been known as a renowned institution across the country and has earned a nice academic reputation as one of the best private medical colleges of the country. The institution has provided modern facilities, which include excellent education, proper training, medical investigations and treatment facilities with modern equipments. We have 7 Operation Theatres with advanced sterilization system. All the departments are well-equipped and well staffed with vastly experienced professors, consultants, and doctors of all levels. Both the Hospital and the Medical College have wide spaced multi-storied building.

Serving humanity is a noble profession. It can be assured that those who will get the opportunity to be admitted here will enter into one of finest and ideal institutions of the country which will provide you with best possible professional knowledge by its highly qualified members. Commitments, dedication, sincerity and professionalism are keys to success which will be imparted by our dedicated and qualified teachers.

I expect the new students will abide by the college rules and uphold the ideals of the MH Samorita Hospital & Medical College. I am confident that this college will emerge as an institution of excellence both nationally and internationally.

FACILITIES AVAILABLE IN THE COLLEGE

Library

College has a fully air conditioned library with 10,000 Text books of latest addition, references, monographs & journals in various subjects, magazines and newspapers. The library provides updated information to students and teachers. The library reading room can accommodate about 300 students at a time. Students and teachers can also borrow text books for use at home. Wi-Fi internet connection has been provided in the library so that students can download recent scientific materials. The library remains open 8am to 10pm. There is also scope of having photocopies and all other learning facilities available in library.

Audiovisual Equipments

Each class is provided with overhead projector, slide projector and microphone system. In addition, multimedia projectors and computers are also available for teaching.

Teaching Methods

Lecture is delivered through lectures, demonstration, tutorials, ward clinics, practical classes, field visits, guided study tours and surveys on health problems. Monthly clinical meetings are held on a regular basis. Teaching aids such as overhead projectors, slide projectors, multimedia projectors, television with VCR and videocassettes, computers with teaching CDs are used in the teaching of students.

Common Room

There are two common rooms for students (One for males and one for females) with television, internet, daily news paper and some indoor games.

Conference Room

There is a fully air-conditioned conference room having arrangement of sitting of 100 people. This is situated in the First floor of the college building.

Extra Curricular Activities

There are facilities for extra curricular activities like indoor/ Outdoor games, cultural programs, free blood donation camp, eye sight test, free donation of medicine for poor people, distribution of winter cloths, observation of national & international days etc. Students publish wall paper and annual magazine. Debates, seminars and cultural events are held regularly. The college also publishes its own internationally recognized medical journal.

Teachers-Guardians Meet

Academic Council and Guardians Advisory Committee meet When necessary. They Discuss all aspects of academic matters of the college and suggest measures for improving the academic environment and total improvement of teaching in the college.

Guardians Participation

Guardians Advice on the college affairs is welcome. There exists a Guardians Advisory Committee, which meets once in four months. There is one representative of guardians in the Governing Body. Guardians are communicated regularly about their children's academic performance and class attendance. They are often invited to put forward suggestions on how to improve the performance of the students. The Members of the Committee are selected annually from the guardians of the students.

National Ladies And International Boys & Ladies Hostel

MH Samorita Hospital & Medical College has hostels for all MBBS & BDS students. Hostels are separate for both male and female hostel building and having facilities for foreign students in a separate building. Residential facilities like single, double and triple bedded room for student and table, chair, cupboard, 24 hours supply of water, electricity & Landry services are available. There has several kitchens available and to prepare the foods to considering religious view. Hostel common room has the facilities like TV. with Cable connection, indoor game. Besides Wi-Fi internet connection are also available.

ADMISSION PROCEDURE FOR LOCAL STUDENTS

Admission to the MH Samorita Hospital & Medical College is through 1st year. Admission is based on the merit list position acquired in admission test conducted by the DGHS. In MH Samorita Hospital & Medical College the 7th Batch will be admitted in 2016-17 Session.

Application Process:

Prospectus and Application Form are available from college office on payment of Tk. 1,000/- during the time period Between 8.00 am - 4.00 pm. Filled-up application form with own hand and should be dropped during office hours before last Date.

ADMISSION PROCEDURE FOR FOREIGN STUDENTS

At present the college has about 491 MBBS students in five batches, starting from 2010-2011 session. After regular inspection and evaluation of the academic performance and the facilities available in the college, the Dhaka University, Ministry of Health and Family Welfare of Bangladesh Government and Bangladesh Medical & Dental Council has permission for admission of 40 foreign students in MBBS & 20 in BDS from 2014-2015 academic session.

Eligibility for foreign students

Foreign student who interested to admit in the MBBS course they must pass the SSC/O-level or equivalent exam and HSC/A-level or equivalent exam with average minimum GPA -9.00. Moreover they also need to pass in HSC/ A-level exam with Biology Chemistry & Physics and average mark minimum 60% or GPA 3.50 but in Biology must be pass in 60% or GPA 3.50.

All foreign students must be apply to the Director General of Health Service of Government of Bangladesh for equivalence certificate through the Bangladesh Embassy. All certificates/ mark sheets / others certificate and passport photocopy are attested by respected country's Education Board or Ministry of Education.

ACADEMIC INFORMATION FOR STUDENTS

Student Attendance:

Student attendance is recorded in attendance registers. Attendance is compulsory and students are liable for fines for failing to attend classes and exams without permission. Students are eligible University Professional Examinations only if they have 75% attendance in classes.

An Academic Calendar is provided to every student to help him/ her to understand and schedule for the year. Every student is also assigned to a particular member of the faculty for guidance with regard to individual problems.

Student's Assessment:

Student's assessments are made through periodic class examinations (card completion, written, oral and practical examinations) and professional examinations.

Discipline at the examination:

Strict discipline is maintained. Indecent gesture, behavior, copying at the examinations and even talking to other candidates at the examinations are to disciplinary action under the University regulations.

Positions at the examination:

Merit positions up to 10th position are declared at the examination.

Grading at the examinations:

Pass Mark is minimum 60% in written, oral, practical & clinical subjects, 10% of written examination of each paper of each subject is allocated for formative examination and 20% is allocated for MCQ. Time allocation is 1 minute for each question consisting of 5 stems (20 questions).

Honors mark is 85% or more of the total in the subjects of the examination. Merit positions are declared only in the cases of regular students. Irregular students have no claim over Honors declaration and Merit position declaration. Those students who pass their examinations in the scheduled time are considered as regular students.

Promotion:

There are 4 professional examinations conducted by Dhaka University

- After passing 1st Professional at the end of 1.5 year students are promoted to 3rd year.
- After passing 2nd Professional at the end of 1 year students are promoted to 4th year.
- After passing 3rd Professional at the end of 1 year students are promoted to 5th year.
- MBBS degree will awarded by the Dhaka University when students pass all subjects of the final professional examination at the end of 5th year.

Internship

Students who have been awarded the MBBS degree by the Dhaka University have to do one year of internship at the MH Samorita Hospital & Medical College for full registration with the Bangladesh Medical and Dental Council (BMDC). Internship Programme is conducted as per BMDC Prescribed rules.

GENERAL RULES AND DISCIPLINE FOR STUDENTS

INTERNATIONAL CODE OF MEDICAL ETHICS

DUTIES OF PHYSICIANS IN GENERAL

A PHYSICIAN SHALL	always exercise his/her independent professional judgment and maintain the highest standards of professional conduct.
A PHYSICIAN SHALL	respect a competent patient's right to accept or refuse treatment.
A PHYSICIAN SHALL	not allow his/her judgment to be influenced by personal profit or unfair discrimination.
A PHYSICIAN SHALL	be dedicated to providing competent medical service in full professional and moral independence, with compassion and respect for human dignity.
A PHYSICIAN SHALL	deal honestly with patients and colleagues, and report to the appropriate authorities those physicians who practice unethically or incompetently or who engage in fraud or deception.
A PHYSICIAN SHALL	not receive any financial benefits or other incentives solely for referring patients or prescribing specific products.
A PHYSICIAN SHALL	respect the rights and preferences of patients, colleagues, and other health professionals.
A PHYSICIAN SHALL	recognize his/her important role in educating the public but should use due caution in divulging discoveries or new techniques or treatment through non-professional channels.
A PHYSICIAN SHALL	certify only that which he/she has personally verified.
A PHYSICIAN SHALL	strive to use health care resources in the best way to benefit patients and their community.
A PHYSICIAN SHALL	seek appropriate care and attention if he/she suffers from mental or physical illness.
A PHYSICIAN SHALL	respect the local and national codes of ethics.

DUTIES OF PHYSICIANS TO PATIENTS

A PHYSICIAN SHALL	always bear in mind the obligation to respect human life.
A PHYSICIAN SHALL	act in the patient's best interest when providing medical care.
A PHYSICIAN SHALL	owe his/her patients complete loyalty and all the scientific resources available to him/her. Whenever an examination or treatment is beyond the physician's capacity, he/she should consult with or refer to another physician who has the necessary ability.
A PHYSICIAN SHALL	respect a patient's right to confidentiality. It is ethical to disclose confidential information when the patient consents to it or when there is a real and imminent threat of harm to the patient or to others and this threat can be only removed by a breach of confidentiality.
A PHYSICIAN SHALL	give emergency care as a humanitarian duty unless he/she is assured that others are willing and able to give such care.
A PHYSICIAN SHALL	in situations when he/she is acting for a third party, ensure that the patient has full knowledge of that situation.
A PHYSICIAN SHALL	not enter into a sexual relationship with his/her current patient or into any other abusive or exploitative relationship.

DUTIES OF PHYSICIANS TO COLLEAGUES

A PHYSICIAN SHALL	behave towards colleagues as he/she would have them behave towards him/her.
A PHYSICIAN SHALL	NOT undermine the patient-physician relationship of colleagues in order to attract patients.
A PHYSICIAN SHALL	when medically necessary, communicate with colleagues who are involved in the care of the same patient. This communication should respect patient confidentiality and be confined to necessary information.
